Impact of Bill 5

Resolution 25-196: Sophie Gagnon – Réginald Manning
WHEREAS the Province of Ontario has an obligation to ensure that economic growth is not achieved at the expense of women's safety, human rights or environmental integrity;
NOW THEREFORE BE IT RESOLVED THAT Council for the Municipality of Mattice – Val Côté hereby support the resolution made by the Northern Ontario Women's Association on October 29, 2025, calling on the Province of Ontario to: 1. Ensure that women, Two-Spirit, and gender-diverse people, particularly from indigenous and northern communities, are actively engaged at the forefront of all planning, consultation and implementation processes under Bill 5, from concept to completion; 2. Establish a dedicated Ministerial role or mandate for overseeing and safeguarding women's rights, safety and economic opportunity throughout the resource development process, including authority to apply gender-based impact assessments to proposed projects; 3. Mandate gender-based and intersectional impact assessments be carried out on all developments enabled by Bill 5, particularly with regard to safety, housing,

transportation, healthcare access and cultural impacts on women and girls; 4. Ensure environmental protections are explicitly tied to community health outcomes, especially for women and children, by investing in environmental monitoring and enforcing strong environmental safeguards tied to traditional ecological knowledge and include community-led, land-based health indicators; 5. Invest in training, apprenticeship and leadership programs to ensure women and girls, particularly those in remote, indigenous and underserved communities, can access opportunities in the skilled trades, environmental sciences, project management and public service tied to resource development; 6. Recognize and act on the findings of the MMIWG2S Inquiry by implementing protective measures around development zones, including funding for shelters, safe transportation, trauma-informed care, community safety initiatives and anti-violence strategies embedded in community agreements; 7. Conservation authorities

Resolution 25-197: Sophie Gagnon – Réginald Manning

WHEREAS Bill 68 (Schedule 3) proposes the creation of the Ontario Provincial Conservation Agency, a Crown corporation that would assume governance responsibilities and consolidate Ontario's 36 conservation authorities into seven regional authorities, with municipal cost apportionment yet to be defined;

NOW THEREFORE BE IT RESOLVED THAT Council for the Municipality of Mattice – Val Côté hereby support Resolution no. 2025-159 made by Council of the United Counties of Stormont, Dundas and Glengarry, calling on the Government of Ontario to maintain local, independent, municipally governed, watershed-based conservation authorities to ensure strong local representation in decisions related to municipal levies, community-focused service delivery and the protection and management of conservation lands, and;

2 + 1 highway design

Resolution 25-198: Marc Dupuis - Joyce Malenfant

WHEREAS Canada's east-west trade and national mobility rely on the Trans-Canada Highway system, including Highways 17 and 11 across Northern and Eastern Ontario, which carry significant freight volumes but remain predominantly two-lane corridors, and;

WHEREAS four-laning the entirety of Highway 17 is the ultimate goal of the communities along the corridor, and;

WHEREAS the proven "2+1" highway design - alternating passing lanes with a continuous median barrier - delivers safety outcomes comparable to full twinning at substantially lower cost, land, and environmental impact, and can be scaled or converted to four lanes (2+2) as volumes grow, and;

WHEREAS the Government of Ontario has announced a 2+1 pilot between North Bay and Temagami and a further extension toward Cochrane, creating a near-term implementation pathway, and;

WHEREAS modernizing Highways 17 and 11 will improve safety, reduce closures, strengthen supply-chain reliability for mining, forestry, agriculture, tourism and manufacturing, and enhance national resilience and emergency response capacity, and;

WHEREAS a phased 2+1 build, prioritizing Highway 11 (North Bay to Cochrane, then Cochrane to Nipigon) and key sections of Highway 17 (western border of County of Renfrew to Sudbury; Sault Ste. Marie to Sudbury; Thunder Bay to Kenora) - aligns with nation-building criteria, supports economic reconciliation with indigenous partners, and enables integrated EV charging and low-carbon construction practices, and;

WHEREAS analysis summarized by the Federation of Northern Ontario Municipalities (FONOM) demonstrates high freight demand on these routes and strong safety/economic rationale for a 2+1 program;

NOW THEREFORE BE IT RESOLVED THAT Council for the Municipality of Mattice – Val Côté formally endorses the adoption and phased implementation of a 2+1 highway program on Highways 17 and 11 as a nation-building project, and;

BE IT FURTHER RESOLVED THAT the Government of Canada be urged to designate this initiative as a project of national interest under the Building Canada Act and to partner with Ontario to co-fund and accelerate planning, design, procurement, and construction, and;

BE IT FURTHER RESOLVED THAT the Government of Ontario be urged to expand the announced pilot to a corridor-wide program, sequencing works as indicated above (subject to readiness and safety benefit), and;

BE IT FURTHER RESOLVED THAT the Government of Ontario prioritize these projects into the Ministry of Transportation's Major Projects Division, and;

BE IT FURTHER RESOLVED THAT both governments ensure early, ongoing, and capacity-supported engagement with affected Indigenous Nations, with opportunities for Indigenous training, contracting, and equity participation, and;

BE IT FURTHER RESOLVED THAT the program incorporate corridor-wide safety features (barrier-separated 2+1 cross-sections, controlled passing frequency, wildlife considerations), resilience measures (closure mitigation, climate adaptation), and clean-growth elements (EV charging readiness, recycled aggregates, lower-carbon materials), and;

BE IT FURTHER RESOLVED THAT this resolution be sent to the Prime Minister of Canada, the Premier of Ontario, the Minister of Transport (Canada), the Minister of Infrastructure (Canada), the Ontario Minister of Transportation, FONOM and our local parliament representatives, MPP Guy Bourgouin and MP Gaetan Malette.

WHEREAS the Ontario Municipal Employees Retirement System (OMERS) Pension Fund serves over 1,000 employers and over half a million employees and retirees from diverse groups, including municipal governments, school boards, libraries, police and fire departments, children's aid societies and electricity distribution companies, and;

WHEREAS the long-standing jointly-sponsored governance model, with two corporate boards, has provided stability, accountability and fairness for both plan members and employers for more than two decades, and;

WHEREAS the Government of Ontario has passed legislative changes to OMERS' governance structure through Bill 68, and;

WHEREAS these changes would replace the current OMERS Sponsors Corporation with a new Sponsors Council that would lose its corporate status and independent resources, and;

WHEREAS the proposed model could allow pension decisions affecting municipal employers and employees to be made without meaningful municipal oversight, increasing financial risk for municipalities and local taxpayers, and;

WHEREAS municipalities are already under significant fiscal strain and cannot absorb additional pension costs without consequences for property taxes or local services;

NOW THEREFORE BE IT RESOLVED THAT the Municipality of Mattice – Val Côté does not support the legislative changes to the *OMERS Act* contained in Bill 68 and requests that the Government of Ontario reconsider the advisability of proceeding with these changes, and;
